

Selvaggio (12 colours)

This distressed, pull-up leather has been lightly brushed with beeswax to give a pleasant matt appearance. It is also designed to allow the natural the natural variations of the hide to show through the finished coat.

These are aniline leathers, tanned to ensure a pleasing distressed finish. Extra fat liquors are applied during tannage, to give the leather a waxy feel. The leathers are designed to allow the natural variations of the leather to show through the finished coat. Pull up leathers; do not have a consistent colour density across the whole hide. They are also designed to change colour when pulled or stretched. These types of leathers are not as colour fast as pigmented hides and should be protected from direct sunlight and not placed next to radiators and other heat sources where the wax could dry out. Evidence of marks and scarring will be seen through the surface finish. Each hide is unique and swatch samples should be regarded as no more than a guide for these types of leather.

SPECIFICATIONS

Category:	Aniline
Raw Material:	European
Country of Origin:	Italy
Average Hide Size:	55 Square Feet
Average Thickness:	0.9 - 1.1 mm
Test Method:	ISO 2589
Test Method:	ISO 5402
Colour Fastness To Light:	Min 3 Blue Scale
Test Method:	EN ISO 105-B02
Colour Fastness To Rubbing:	Dry 50 Cycles - Min 3 Grey Scale Wet 20 Cycles - Min 3 Grey Scale Perspiration 20 Cycles - Min 3 Grey Scale
Test Method:	EN ISO 11640, EN ISO 11641
Finish Adhesion:	Min 2 N/10mm
Test Method:	EN ISO 11644
Tear Strength:	Min 20 N
Test Method:	EN ISO 3377-1
California Technical:	Class 1
Test Method:	Cal Tech Bulletin 117
Cigarette Ignition Resistance:	Class 1
Test Method:	UFAC/NFPA 260
